87.0%

Experience

Quest Digiflex Pvt. LTD

Jan 2025 – Present

Frontend Development, Intern

Indore, India

- Contributed to live projects, developing real-world applications with a direct user impact.
- Collaborated with managers to gather requirements and align with front-end development objectives.
- Designed and implemented responsive user interfaces using React, ensuring cross-device compatibility.
- Developed reusable and modular components to enhance code maintainability and scalability.
- Styled interfaces using Tailwind CSS and Material UI, ensuring a visually appealing and consistent design.

Projects

MP Jungle Safari | MERN Stack | Group Project | mpjunglesafari.com

April 2025

- Built a responsive website for MP Jungle Safari, featuring real-time safari booking and user-friendly navigation.
- Worked on designing and implementing various internal web pages.
- Used React Router for seamless, dynamic navigation between different sections of the site.
- Followed version control best practices using Git and GitHub for team collaboration.
- Integrated RESTful APIs to fetch and manage hotel data for real-time interactions.

Tractors-24 | MERN Stack | Group Project | tractors24.in

Feb 2025

- Developed a responsive user interface for Tractors24.in, ensuring seamless accessibility across various devices.
- Styled the application with MUI, achieving a modern and consistent design throughout the platform.
- Integrated RESTful APIs to fetch and display tractor data, enhancing interactivity and user engagement.
- Applied client-side routing with React Router for efficient navigation.
- Collaborated with the backend team to ensure seamless data flow and synchronization.

Quest DigiFlex Website | React, Vite, Tailwind CSS | Group Project | digiflex.ai

Jan 2025

- Designed and developed a fully functional company website from scratch with 60+ pages.
- Led a team of 10+ developers, overseeing project architecture, code quality, and deployment.
- Built a responsive and dynamic UI, ensuring seamless performance across various devices.
- Ensured scalability and maintainability by following best coding practices and a modular design approach.
- Managed version control using Git and streamlined collaboration via GitHub.

Technical Skills

Languages: C, C++, HTML, CSS, JavaScript

Frameworks: Tailwind CSS, Material UI, React.js

Developer Tools: Git, GitHub, Visual Studio Code

Achievements

- Solved 300+ problems on LeetCode, GeeksforGeeks and CodeStudio.
- Winner of the High School Speech Competition in 2018.

Extracurricular Activities

- Actively participated in drawing competitions during my academics.
- Mostly participated in speech competitions during my academics.
