Experience

Quest Digiflex Pvt. LTD

Jan 2025 – Sept 2025

Front-End Developer (Intern → Full-time)

Indore, India

- Started as an Intern (Jan–May 2025), contributing to live projects and gaining hands-on experience with React, Next.js, and Tailwind CSS.
- Converted to a Full-time Developer (June–Sept 2025), taking ownership of production-level features and collaborating directly with managers on requirements.
- Designed and implemented responsive user interfaces, ensuring cross-device compatibility.
- Built reusable and modular components to improve scalability and maintainability.
- Styled interfaces with Tailwind CSS and Material UI, delivering visually consistent designs across projects.

Projects

Ujjain Mahakal | *Next.js* | ujjainmahakal.com

June 2025

- Developed a responsive Next.js platform for UjjainMahakal.com with integrated spiritual and travel booking features.
- Integrated RESTful APIs to enable booking functionalities for Tours, Hotels, Vehicles, Pujas and Helicopter packages.
- Deployed images on Contabo cloud storage, improving load time by 40% (as verified by Google PageSpeed Insights).
- Used dynamic routing in Next.js to enhance performance and SEO.

MP Jungle Safari | *MERN Stack* | *Group Project* | mpjunglesafari.com

April 2025

- Built a responsive website for MP Jungle Safari, featuring real-time safari booking and user-friendly navigation.
- Worked on designing and implementing various internal web pages.
- Used React Router for seamless, dynamic navigation between different sections of the site.
- Followed version control best practices using Git and GitHub for team collaboration.
- Integrated RESTful APIs to fetch and manage hotel data for real-time interactions.

Quest DigiFlex Website | *React.js, Vite, Tailwind CSS* | *Group Project* | digiflex.ai

Jan 2025

- Designed and developed a fully functional company website from scratch with 400+ pages.
- Led a team of 10+ developers, overseeing project architecture, code quality, and deployment.
- Built a responsive and dynamic UI, ensuring seamless performance across various devices.
- Ensured scalability and maintainability by following best coding practices and a modular design approach.
- Managed version control using Git and streamlined collaboration via GitHub.

Technical Skills

Languages: C++, HTML, CSS, JavaScript

Frameworks: Tailwind CSS, Material UI, React.js

Developer Tools: Git, GitHub, Visual Studio Code

Core Subjects: Object-Oriented Programming

Achievements

- Solved 300+ problems on LeetCode, GeeksforGeeks and CodeStudio.
- Winner of the High School Speech Competition in 2018.

Extracurricular Activities

- Worked together with peers to solve challenging problems in Data Structures and Algorithms (DSA).
- Actively participated in speech and drawing competitions during academics.
